### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 6, 7, 8, 9, 12, and 18 among other things teach the limitations a system, client, a server, a method, a computer readable medium with means for or implementing "a client computer and a server, wherein said client computer includes a first font transmitting unit for transmitting font information data representing fonts which are stored on said client computer and capable of being output at said client computer; and

wherein said server includes: a first receiving unit for receiving the font information data that has been transmitted from said first font transmitting unit of said client computer; a font search unit for searching for fonts, which are stored on said client computer and capable of being output at said client computer, from among fonts capable of being output at said server, on the basis of fonts represented by the font information data that has been received by said first receiving unit; and a second font transmitting unit for transmitting font information data representing the fonts, which have been found by said font search unit, to said client computer,

wherein said client computer further comprises a font name display device that displays a font name represented by the font information data transmitted from said second font transmitting unit of said server; and

wherein said second font transmitting unit transmits said font information data representing the fonts, which have been found by said font search unit, to said client computer for display by said font name display device of said client computer to a user such that said user can selectively create documents using said fonts which have been determined to be stored on said client computer, which have been determined to be capable of being output at said client computer, and which have been determined to be capable of being output at said server" in a data communications system environment where a client and a server are capable of communicating with each other. The dependent claims further define transmitting and receiving operating system data, reporting units, selection units, and associating types of documents with capable fonts.

The prior art does not teach the cited limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
